Subject: NVF Site, Kennett Square, PA

Hi Mike:

As we discussed, we have applied to the Borough of Kennett Square for a demolition permit to take down the existing structures on-site. At this time, we are not planning to begin the soil work, which is the work described in the Act 2 Clean-Up Plan approved by PADEP.

We have discussed the status and handling of the regulated tanks with PADEP's tank group, and will execute the removal and close-out paperwork in accordance with its regulations. We have also performed an asbestos survey and provided PADEP notice of the work's impending commencement.

Please do not hesitate to contact me should you have any issues or concerns.

Thanks,

Jessica D. Zuniga
